

Established in 1995, the **Coalition of New York State Public Health Plans** is an important voice for New York’s non-profit, publicly-focused health plans and their members. All Coalition plans are sponsored by or affiliated with public and not-for-profit hospitals, community health centers and physicians.

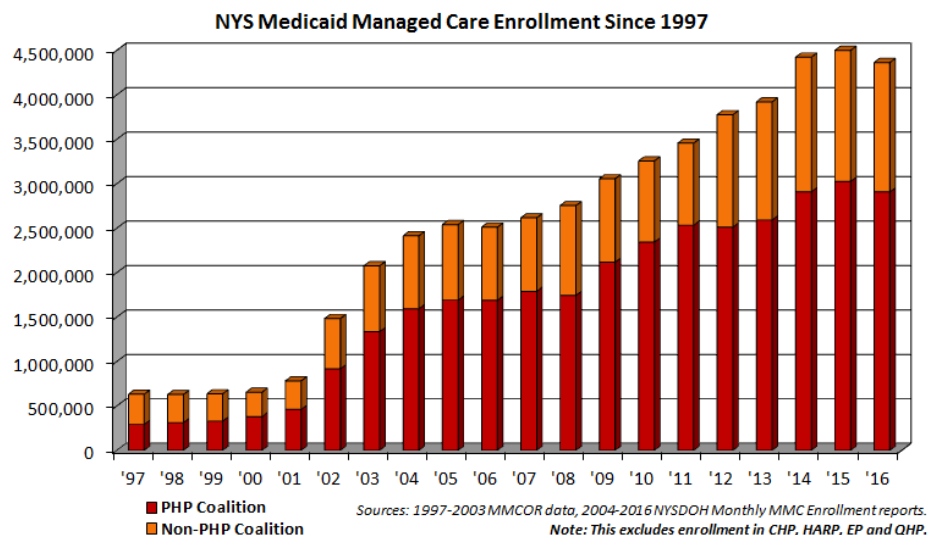

PUBLIC HEALTH INSURANCE PROGRAMS

The Coalition represents 8 public health plans serving **more than 3 million enrollees** in New York’s Medicaid Managed Care (MMC), HIV Special Needs Plan (HIV SNP), Child Health Plus (CHP), and Health and Recovery Plan (HARP) programs, **approximately two-thirds of all adults and children enrolled in these programs**. Over the past six years, Coalition plans have extended their services to higher need, more medically complex populations. Collectively, our plans have been responsible for the **success of many of the Medicaid Redesign Team’s ambitious initiatives**, including the transition of more than 20 benefits and populations, such as the pharmacy and long-term-stay nursing home benefits and the homeless and low birth weight infant populations, into MMC. They have also worked closely with the State to **implement new programs**, including HARP for Medicaid beneficiaries with significant behavioral health needs and Fully Integrated Duals Advantage (FIDA) for dual-eligible individuals with long-term care needs.

Our plans have decades of experience delivering high-quality services to populations that have traditionally faced significant barriers to health care, and they consistently receive high marks in quality of care and member satisfaction.

PHP COALITION PLAN ENROLLMENT <i>Medicaid Managed Care, HIV SNP, Child Health Plus and HARP Enrollment</i>	
Affinity Health Plan	244,346
Amida Care	6,171

Note: This excludes EP and QHP enrollment.

MARKETPLACE PROGRAMS

The Coalition has supported State efforts to design, establish, and implement **New York State of Health**, the State’s Health Insurance Marketplace, to improve access to affordable coverage for New Yorkers. Coalition plans have also played a critical role in the development and success of New York’s **Essential Plan**, which covers lower income residents who earn too much to qualify for Medicaid or do not qualify for federally-matched Medicaid due to immigration status.

As of January 2017, five Coalition plans offer qualified health plans (QHPs) through the Individual Marketplace and collectively accounted for **50% of QHP enrollment**; six Coalition plans offer the Essential Plan, accounting for **62% of EP enrollment**.

PHP COALITION PLAN INDIVIDUAL MARKETPLACE ENROLLMENT		
	QHP	EP
Affinity Health Plan	5,218	38,102
Fidelis Care New York	58,298	147,900
